

OLEH BILOSTOTSKYI

Open portfolio

Frontend Developer with 3+ years of experience working with React | Next.js | TypeScript.

Built **SaaS and e-commerce systems** including **POS, KDS, kiosks, admin panels, and client portals**.

Implemented **end-to-end order flows, payment integrations** (terminals, cash machines), and **real-time features** used in daily operations.

Leveraging **AI-assisted development** to accelerate delivery, refactoring, and problem-solving.

TECH SKILLS

Core Stack:

React,
Next.js,
TypeScript,
JavaScript (ES6+)

UI & Styling:

Tailwind CSS,
Material UI,
Bootstrap4,
SCSS/SASS,
Styled
Components,
Framer Motion

Testing:

Jest,
React
Testing Library,
Cypress,
Playwright

AI & Productivity:

AI-assisted
development
(Cursor, ChatGPT),
Structured
prompting,
AI for debugging,
refactoring,
code generation

State & Data:

Redux Toolkit,
RTK Query,
Zustand,
TanStack Query,
REST API,
WebSockets

Tools &

Ecosystem:

Git,
Vite,
Webpack,
Sentry,
i18n,
GraphQL
(Apollo Client),
Vercel,
Firebase

Additional:

Vue,
Nuxt,
React Native,
Node.js,
Mapbox,
MongoDB

LANGUAGES

- Ukrainian Native
- English B2

WORK EXPERIENCE

Front-end Developer React

Nov 2023 – Feb 2026
(2yr. 4 mos.)

Go Interactive

- Worked on a **SaaS** restaurant platform including **POS, KDS**, self-service **kiosk, admin panel** and partner **portal**
- Implemented full **end-to-end order flow**: order creation, editing, cart management, upsells, checkout and payment processing
- Built **complex payment logic** including multiple payment providers, **split payments** and fallback handling (offline mode, retry logic)
- Implemented **real-time order synchronization** with KDS via **WebSockets** (order updates, statuses, kitchen workflow)
- Developed **multi-device interfaces** (tablet, desktop, kiosk) optimized for high-traffic environments
- Built and maintained **admin panel** features: business management, menu configuration, roles & permissions, reports and integrations
- Integrated delivery features including **Google Maps** and location-based order handling
- Collaborated with designers and stakeholders to уточнювати requirements, **propose solutions and improve UX** before implementation

Front-end Developer React

May 2023 – Sep 2024
(1yr. 5 mos.)

Positive Reset

- Developed and maintained websites for a **multi-location clinic franchise**
- Built a **custom admin panel** and **CRM-like system** for managing content, users and internal operations
- Redesigned and improved an existing admin panel, enhancing **UI/UX**
- Implemented **role-based access** and data-driven interfaces
- Integrated **Firebase (Authentication, Firestore, Hosting)**
- Developed **service listings** and **order/request flows**
- Refactored and improved codebase structure

Content Managet

Mar 2020 – Nov 2023
(3 yrs. 8 mos.)

Games web sites

- Worked on a **gaming web portal** focused on publishing and managing **browser-based games**
- Searched, tested, and integrated games built with **HTML5**, **Unity**, and various **emulators**
- Created **unique SEO-oriented descriptions** for games and related content
- Published and maintained content using **Joomla CMS**
- Regularly worked with **HTML** and **CSS** to adjust layouts, fix **UI issues**, and customize pages
- Used **JavaScript** for basic logic and data handling, including frequent use of **array methods**
- Managed files and deployments via **FileZilla (FTP)**
- Gained hands-on experience with **web technologies**, **content workflows**, and **large-scale content platforms**

EDUCATION

Cherkasy State Technological University

Project Management – Master's degree

Sep 2024 – Jan 2026

Kyiv National University of Technologies and Design

Design – Bachelor's degree

Sep 2015 – Jun 2019

COURSES

GeekHub

HTML | CSS | JS | React | Redux | TypeScript | Node.js

Oct 2022 – May 2023

7EEDUCATION

HTML | CSS | JavaScript | React

Apr 2022 – Sep 2022

Udemy

JavaScript Full Course

Mar 2022 – May 2022
